

Gels in 3 Minutes? That's fresh!

Take control of your day and discover the **mPAGE® Lux Casting System** for preparation of ready-to-use bis-tris protein gels in just 3 minutes.

mPAGE® Lux Casting System replaces your traditional gel casting process with a simpler and safer method with more reproducible results. Take a breath and get used to an ultra-fast gel casting process with less waste, less toxic chemicals and without the worry of failure. Ask us for more and book your demo soon.
